The previous👉NPC Souls👉1.3 update had a couple of bugs.

They're finally hereby fixed! 🐼👉👉👉👉👉

A list of fixes:

- A crash when collecting the Uber Hammer.
- A crash when completing a stage for players who started playing before the NPC SOUL update.
- Equipped items are now upgradeable from the Items menu.
- NP are now properly gained from certain (boss) fights.

HUGE apology for the delay! I was unable to work for a couple of months starting October/November due to personal health-related reasons. Then when I was finally able to work again, it took some time to catch up on everything and to get a proper understanding of what needed to be fixed.

Hopefully this update fixes everything necessary. If there's still something off, please post it here and I'll get back to you as soon as possible:
